No. 19

AA Wing Construction Started

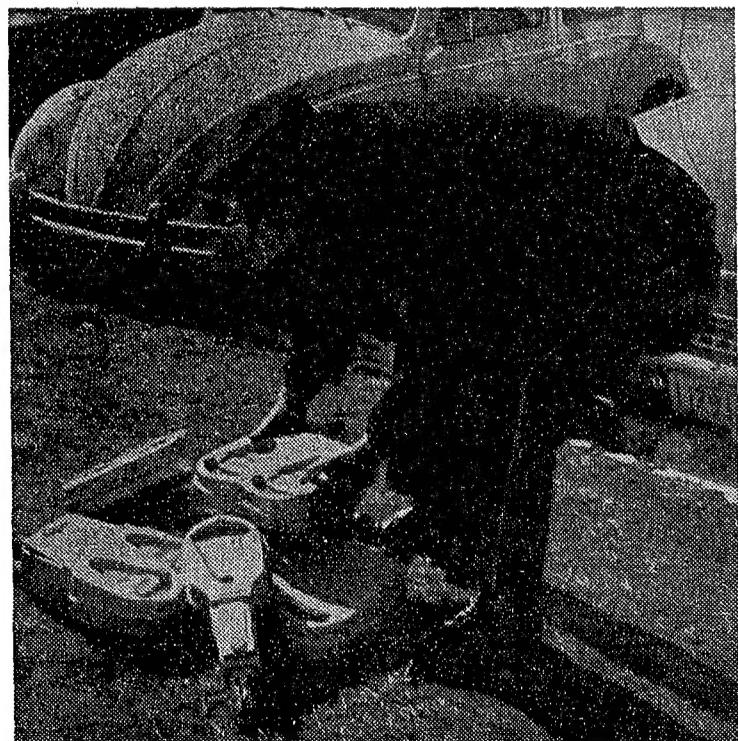

A modern sidewalk superintendent looks on as ground is broken for the new Applied Arts wing.

Hawkins Construction Co., taking advantage of what is hoped to continue a string of good weather, moved construction gear in and broke ground early Monday.

The new addition will house a time and motion study laboratory, an electric computer center, classrooms and four offices.

If the project continues at this pace, Hawkins officials expect no problems in meeting a fall semester deadline.

Meters Go... Won't Help

About 50 parking meters lost their places in the first row of the main parking lot west of the AA building but it doesn't mean free parking.

In fact, it means fewer stalls will be available for students. The area was portioned off for faculty members because Lot P, the space previously designated for them is blocked by the construction of a new wing on the AA building.

Library's Wings Formally Opened

The ribbon cutting ceremony opening the new extensions of the Gene Eppley Library was held last Friday. The library can now accommodate an additional 1,750 students.

The east wing, which contains smoking and group study rooms, will also house social science books. The periodical and literature sections formerly located

on the first floor of the original structure, are now in the west wing.

The additions to the library were financed on a matching funds basis by the Eugene C. Eppley Foundation and the university at a total cost of about \$535,000. New equipment for the wings is to cost an estimated \$60,000.

TV Studio Scene of Psychology Lecture

For the second consecutive semester, a credit course is being offered via closed-circuit television. Dr. William Jaynes, professor of psychology, is teaching introduction to psychology to approximately 170 students at 1:30 p.m., every Tuesday and Thursday.

Dr. Jaynes lecture originates from the campus TV studios. The students are in rooms 250 and 252 of the Applied Arts Building. A special audio device enables students to converse with the professor.

During the semester just completed, Dr. Vatro Murvar, associate professor of sociology, taught introduction to sociology to 163 students via the closed-circuit television system.

Biology Club Planning On Spring Field Trip

Newly elected officers of the Biology Club are Judy Williams, president; Mildred Stepanek, vice president; Virginia Evenson, secretary and Loretta Wohlt, treasurer.

Plans for the spring semester include redoing the showcase on the third floor of the Adm. building. Club members plan to put examples of higher biology courses in the case.

Preparations are now underway for a field trip to be held during spring vacation. The Biology Club meets in Adm. Room 344 once a month. Sponsors are Dr. William Bachop and Dr. Charles Ingham.

Dodge St. Alteration? OU May Regain Old Entrance At 62nd St.

Part of the university's traffic problem may be on its way to a solution when and if plans being made to widen Dodge street go through.

Doctor Milo Bail says the plans are well underway and the project has reached the point of buying the necessary land. Legal work on turning over a 25 foot strip on both sides of the street bordering the university is in the works.

Construction will begin on 52nd Street and continue to 69th. Dodge will then conform to the five lane strips adjoining both ends of the project.

Dr. Bail pointed out that one of the big benefits for OU will be a turning lane which will allow west-bound autos on Dodge to turn left on the campus. It will consist of a 200 foot lane to handle cars which will turn right off Dodge and then left through a traffic light and into the 62nd Street entrance to the campus. This is expected to ease the congestion of peak hours which has developed at the 60th St. and Happy Hollow Boulevard intersection.

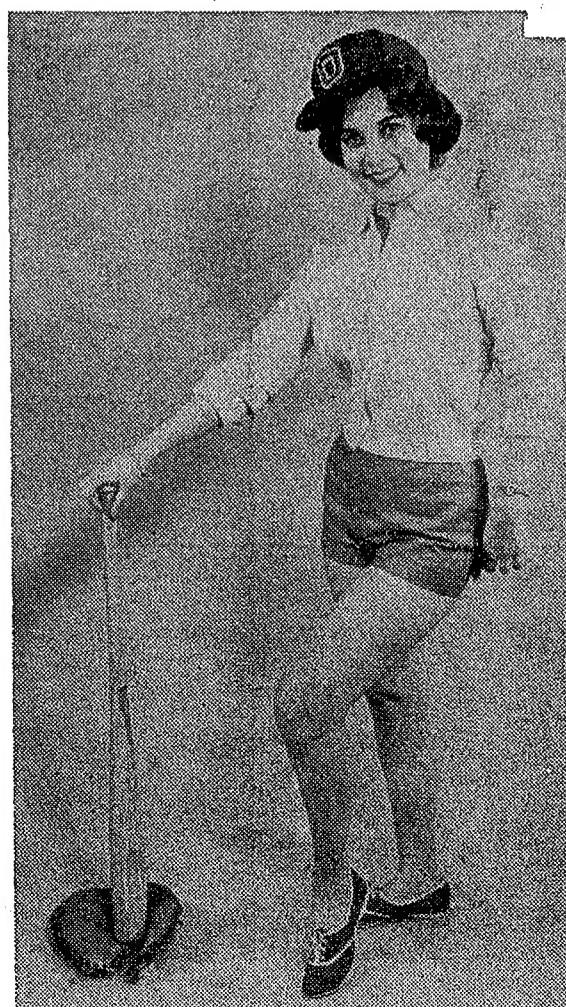

Fifteen of the proposed 25 feet to be added to the thoroughfare are to come from the OU side of the street and nine feet from the north side.

Dr. Bail said work on the easements for the OU property are in the works so that the legal aspects will be in order when the city makes more definite plans for construction.

As it now stands, the project is scheduled for completion next October. However, Dr. Bail says he'll talk with city officials

when the project comes up for review to see if a possibility may exist for an earlier start. This would allow a completion date in time for the 1964 fall semester and would mean the construction would be carried on during summer months when traffic in the area is at its ebb.

Co-ed Of The Week

"Batter up . . ."

Well, it isn't quite that time of the year yet but this week's "Co-ed of the Week" Shirley Donaly seems anxious for the start of baseball which also means the start of warm weather.

Shirley, a 21 year-old senior, is majoring in secondary education. She is currently student-teaching at George Norris Junior High and is a member of the Student Education Association.

Shirley is a member of Alpha Xi Delta and has served on that sorority's Standards Board.

She is currently Miss Greeter for the city of Omaha in connection with the Junior Chamber of Commerce. She was also a finalist in the Miss Omaha Pageant in 1962.

Dr. Jaynes Class Prepares Report

Police Dept. Furnishes All Information

The University of Omaha will cooperate with the community to help keep safety in the public eye.

A class of 15 graduate students under Dr. William E. Jaynes, director of industrial testing and institutional research, will prepare a report which may be released by the Public Safety Council on June first.

The study concerns the distribution of accidents in the city. According to Dr. Jaynes, also psychology department head, the police department is furnishing the information for the study. The class in advanced statistics has the task of evaluating the material and presenting it to a subcommittee in a language which the public can profit by.

The data processing equipment at OU will be used if needed.

Sabres Are Sponsoring Local ROTC Drill Meet

The second annual High School ROTC Drill Meet will be held a week from tomorrow in the University of Omaha Fieldhouse.

This meet, sponsored by the AFROTC Sabre Drill Team, began last year with four teams participating. Central High School will be back again this year to defend its championship against seven teams from the Omaha and Council Bluffs area.

The other teams entered from Omaha are Benson, North, Tech and South with Thomas Jefferson representing Council Bluffs.

Trophies will be awarded to the first three place teams and a medal will go to the outstanding team commander.

Seating Capacity To Increase 50%

An increase of more than 50 per cent in seating capacity may be accomplished by the use of a new type of student desk now being studied by University officials.

According to Physical Plant Head Clarence Lefler, of 26 classrooms in the university, 16 could be economically converted to accommodate the new type of desk.

Lefler said these 16 classrooms contain a total seating capacity of 1,164 seats. By using the new type of desk, the seating capacity could be increased by 584 more spaces, a 50.2 per cent increase for those 16 rooms.

Costs for the new desks will fall between \$25-34 dollars per unit. Lefler said life expectancy of the units would be comparable to the wooden units now in service.

Besides the advantage of saving space, the student will find the new desks much easier to get in and out of.

This summer, one classroom will be equipped with the new units for further study.

Peace Corp Applicant Faced Quizzing Tues.

Only five people showed up for the Peace Corps tests that were given Tuesday, Feb. 18. The weaker sex had the edge. There were three girls and two boys.

The five are Carroll Dorey, Miriam Olson, Gary Meester, Sharie Miller, Jerry Gress. The testing office did not specify what the choices of assignment were.

The battery of tests consisted of two parts, one of which was optional to the applicant. The first part is a general aptitude and foreign language test and is required. The second part was a French or Spanish test, which was not required.

More Than 100 Students Spend Mornings Teaching

Suzanne and DeEtte . . . in television methods course.

"Never before has Omaha University had such a large number of student teachers," according to Dr. Hollie Bethel, professor and chairman of the department of elementary education.

A total of 104 persons are participating at present. Eighty-seven are new teachers and 16 are working teachers who are taking special courses and had not participated in the student-teaching program previously.

Student teachers spend mornings assisting in classrooms at local schools for 32 weeks. They observe teaching methods and participate in classroom work. Student teachers work in Omaha, Bellevue and District 66 schools.

In the afternoons, student teachers attend method courses in their chosen fields.

Representative of OU student teachers are DeEtte and Suzanne LaRue.

The sisters commute from Glenwood, Ia. They teach at Westgate School in District 66. DeEtte works with a 6th grade teacher and Suzanne, a 4th grade teacher.

As a part of this work, they observe, work with the teachers and participate in the class-

Instructor's Art Print To Appear In Exhibit

An intaglio print by art instructor Thomas H. Majeski was accepted this month to appear in the Northwest Printmakers Exhibit. The exhibit will be held at the Seattle Art Museum between February 6-March 29, and at the Portland Art Museum between April 10-May 10.

According to Majeski, the print "Ellen" is the face of a young girl.

OU Cooled First

The University of Omaha was the first college in the United States to be air conditioned; it also has one of the most economical air conditioning systems. The University is built over an artesian well and consequently the only cost is for machinery to conduct the water.

Dr. Daniel Jenkins, the first president of Omaha University served for 11 years without salary.

AF Angel Flight Is Still Seeking New Members

Approved Applicants To Get Interviews

The AFROTC Angel Flight membership drive is still on. Any co-ed interested in joining may pick up and fill out an application in room 177 Adm., from today until Feb. 28.

A prospective Angel must have an accumulative grade point of 2.3 and be carrying 12 hours.

The objectives of Angel Flight are to aid in the progress of the Arnold Air Society and to advance and promote interest in the AFROTC and in the USAF. Angels also obtain information concerning military life.

If the application is approved, those persons will be asked to appear before a board of review during March.

New Angels for the coming year will be announced at the AFROTC Annual Military Ball held at Peony Park on April 3.

TKE Chapter Adds Seven New Pledges

Tau Kappa Epsilon has added seven pledges to its chapter. The new pledges include Duane Anders, Kurt Crause, Jerry Fleetwood and Rich Kross.

Other pledges are Gregg Muffitt, Gary Mundt and Mike Thomas.

Delta Rho Name Wright President VP Post to Lenz Fraternity Pledges 11, Initiates Boe, Rynes

Doug Wright was elected president of Delta Rho Gamma at the fraternity's Feb. 11 meeting. Warren Lenz was chosen vice president. Serving as secretary is Tom Kelsey. Earl Buckles was elected treasurer.

Completing the list of new officers are: Jim Boe, social chairman; Tom Kelsey, ritualist; Jack McKernan, scholastic chairman; Pat O'Doherty, pledge trainer and athletic chairman and Lloyd Cardwell, assistant pledge trainer.

Activation of new members took place Sunday, Feb. 9 at the home of Tom Kelsey. The initiates are Jim Boe and Jack Rynes.

Delta Rho pledged 11 men during the week of Feb. 10-14. New pledges are Leon Behrend, Ross Caniglia, Jerry Fitzpatrick, Jack Krogh, Mike McKenzie and Mike Murphy.

Others are Mike O'Doherty, Chuck Randone, Jim Smolsky, Tom Szemplenski and Bob Wolf.

Delta Omicron Installs Patron

Recently elected officers of Delta Omicron, professional music fraternity for women, are Diane Mahoney, president; Joyce Borland and Mary Kay Menze, vice presidents.

Others are Sharon Evans, secretary; Ruth Helligso, treasurer; Mary Sutton, song leader; Jana Doxon, historian; Billie Poulsen, warden and Lynn Dyba, publicity.

Following the election, John D. Miller, music instructor was installed as a patron.

KDP Representatives To Purdue Convention

Kappa Delta Pi, the educational honorary, will send two representatives to its national convention at Purdue University in West Lafayette, Ind.

The OU representatives are Mrs. Doris Tabor, chapter sponsor and Karen Stacke, president.

The convention will begin next Wednesday and will continue until Friday.

The purpose of the convention is to exchange ideas on ways of improving the organization.

Newmans To Review 'Vicar' At St. M. M.'s

The Newman Club will have a business meeting Sunday at 6:30 p.m. in the basement of St. Margaret Mary's church.

Topic of discussion will be the "Vicar," a play of Rolf Hochhuth. Miss Alice Hewitt will lead the conversation and report on articles that have been written about the play.

Bishop To Speak

The Bishop of Nebraska, the Rt. Rev. Russell T. Rauscher, will talk on the Anglican Congress at the Sunday meeting of the Canterbury Club.

Evening prayer will begin at 6:30 p.m. with the regular business meeting following at 7 p.m. Aly Nelson is in charge of the Prayer.

Lambda Chi Pledges

Lambda Chi Alpha has added seven men to their pledge roster this semester.

The new pledges are Jim Brown, Bob Hildebrandt, Mark Otoupal, Frank Smith, Brian Stemmermann, Phil Wilson and Ron Wright.

Clockwise: Ruth Helligso, Linda Riddle, Sherri Zagor and Judy McCoy.

Lambda Chi's Announce Queen Tomorrow Night

Four co-eds will vie for the Mardi Gras Queen title tomorrow evening at the annual Lambda Chi Alpha dance.

The event will begin at 9 at the Carter Lake Club, one Greek Card per couple will admit. Everyone is asked to come in costume; the voting for the queen will be limited to one vote per costumed couple.

Queen candidates are Ruth Helligso, Sigma Kappa; Judy McCoy, Zeta Tau Alpha; Linda Riddle, Chi Omega; and Sherri Zagor, Alpha Xi Delta.

The Impacts will furnish the music. Mike Jones, social chairman, is in charge of arrangements Jim Solomonson is assisting.

Door prizes will be given.

Debators Go To Tucson

Debate coach Dwayne Aschenbrenner, Dave Cowsky, Larry Hicks, Roni Meyer, and Stan Zwerling are representing Omaha University at Tucson, Arizona.

The top four University of Omaha intercollegiate debaters and their coach are bidding for high honors at the Thirteenth Invitational Speech Tournament in Arizona February 20-22.

Dwayne Aschenbrenner, OU debate coach and his four varsity debaters, Dave Cowsky, Larry Hicks, Roni Meyer, and Stan Zwerling left February 16 to drive to Tucson, the meeting ground for forensic squads from the west coast and the midwest.

Ou's team, which is considered among the best in the midwest, is debating nine rounds, if not eliminated in the finals, on the national topic: Resolved: That the federal government should guarantee an opportunity for higher education to all qualified high school graduates.

Roni Meyer and Stan Zwerling will also enter the extemporaneous speaking contest with topics from national and international problems.

CIC Title Match: Indians vs Emporia

Thursday Tilt To Decide Conference Championship

Mark next Thursday night on your calendar. For on that night hopes for a first Central Intercollegiate Conference championship will be riding on the shoulders of basketball coach Jim Borsheim.

Picked to be at the bottom of the pack in the CIC race the surprising Indians have compiled a 5-2 league record going into the all-important title game against Emporia State. The Indians will be facing the pre-season league favorites when they entertain the Hornets who are also 5-2 in league play.

Heading the Hornet squad are two 1962-63 All-CIC conference players. Doug Glaysher, a 6' 5", 190-lb senior forward has won conference honors the past two years and is co-captain of the team. The other bright spot on coach E. D. (Gus) Fish's roster is Garry Patterson a 5' 9", 150-lb senior guard. He climaxed last season's play by being unanimously selected to the all-CIC first team.

Winning Season

The first winning basketball season in nine years has been assured for Omaha University by coach Jim Borsheim. The Indians passed the point of no return on Saturday with a 92-91 Central Intercollegiate Conference win over Washburn.

Borsheim's rejuvenation of a three-year period, has come when student support has been almost non-existent. Meager home turnouts have witnessed a fine 8-1 season.

A loss in the season's finale against Emporia State would only lower the record to 12-11.

The victory over the Ichabods in Topeka, Kansas, ran the OU win total to 12, gave the Indians a 5-2 conference mark, and helped tighten the foot-hold on first place in the CIC.

Freshman star Sam Singleton led all scorers as he found the range for 31 points. Larry Villnow had 18, Paul Kaster 14, and Charlie Myers 13.

Ravens Again

St. Benedict's administered loss number 10 to Omaha University Tuesday night in Atchison, Kansas. The 80-70 verdict gave the Ravens their second win over Omaha this season.

Sam Singleton, 6-5 forward, paced the field with 28 points, but it wasn't enough to off-set St. Benedict's scoring balance.

Junior Larry Villnow turned in good support for Singleton as he tallied 19 markers. The white-haired Paul Kaster added 14 points again.

Official Notice

All Golf, Tennis and Baseball candidates who have not had physicals must be able to take a physical on Thursday, February 27, between 3:00-4:00 p.m. in the Field House training room. The examination will be given by team physicians.

All students interested in Golf should contact Ken Fischer in his Field House office.

TKEs, Boots No. 1 Lead Bowl Standing

TKE continues to hang onto the top spot in the Intramural bowling race. Close behind is Bootstrapper No. 1. With a record of 56½ - 11½ and a total of 35,631 pins TKE leads runnerup Bootstrapper No. 1 by 5½ games but the Boots have a higher total pin count with 35,914. The other half of the Bootstrapper contingent, Boot No. 2 holds third position with a 43-25 record; Lambda Chi and Delta Sigs are deadlocked for fourth with records of 41-27.

J. Jerabek of Bootstrapper No. 1 holds the high individual series with a 713 and the high individual game with a 268. With an 862 and 2,308 the runnerup team possess the high series and high team game.

Intramural Director Bert Kurth has scheduled Bowling competition to run thru April 29.

	W	L

At the Student Center's Region 8 table tennis tournament held last Friday and Saturday, Richard Covalevic and James Thompson placed second in doubles.

Volleyball team entry deadline will be February 28, all games will be played on Monday and Thursday.

The Intramural Indoor Track Meet was held yesterday after this paper went to press, results of the meet will be published in the next edition.

'Whitey' Kaster's Efforts Sparks Basketball Team

Omaha University's basketball efforts have resulted in increasing better seasons. Credit can be given to Coach Jim Borsheim and it is well deserved. But yet another asset to the

Kaster hits at 13 points a game.

Sayers To Miss OU Meet Tonight For AAU Track

by Mike Moran

Rocket Roger Sayers will not be in uniform tonight when Wayne State and Nebraska Wesleyan provide the opposition in a triangular track meet at the Fieldhouse.

Sayers has been invited to the National A.A.U. Indoor Track Championships at Madison Square Garden tomorrow night.

The Rocket will run in the 60-yard dash field which includes the great Bob Hayes of Florida A & M. Sayers has met Hayes twice before and beaten him both times. Roger won in both the prelims and the finals of the 100 yard dash at the NAIA Championships at Sioux Falls in 1961.

Williams in Spotlight

So the load will fall on the shoulders of Terry Williams in the sprints. He will have to run the 60, the 300 and possibly the 440 unless coach Lloyd Cardwell can come up with a new quarter miler by tonight.

A new man to replace Sayers will have to be found for the mile relay team. Herb Rhodes is a possibility and Dennis Ondilla is another, despite limited 440 experience. The loss of speedy Mel Wade has put a blow to what would have been a fine relay outfit. The foursome of Sayers, Hultman, Wade and Williams ran a 3:11 last year in the spring.

Gould's mark tops

Gould was the individual standout last week as the Indians nipped Emporia and South Dakota in a triangular meet.

The Omahans scored 48 points to 47 for Emporia and 33 for the Coyotes.

Gould's big night came in the mile run. He beat touted Ireland Sloane, the Emporia distance ace, with a 4:21.3. The time is a meet and OU record.

Sayers nipped Williams in the 60 with a 6.1 for another meet record and then set a Fieldhouse record in the new 300 with 32.3 clocking.

Other OU winners included Dave Haggard in the high jump, Williams in the 440 and Clyde Kettlesen in the 60 highs.

The Fieldhouse and Stadium were built in 1949, at an estimated cost of \$750,000.

Campus Sports Briefs

CIC title game with Emporia State.

The 12-10 basketball record is the best compiled by any coach since Virg Yelkin's 1954-55 team which had a 15-10 season.

The wrestlers travel to Sioux Falls today to take on Augustana and tomorrow will tangle with South Dakota State. Next Tuesday they will entertain Morningside in the field house.

ECONOMICS CAN BE CHUCKLES

Many of you have been avoiding economics because it is so widely known as "the dismal science." Oh, good friends, stop cheating yourselves of many a laugh and cheer, because economics is a positive riot! True, it is called the dismal science, but that is only because it was invented in 1881 by Walter C. Dismal.

It is easy to understand why Mr. Dismal's discovery of economics is today almost forgotten, for the fact is that he himself only stayed with the subject for two or three days. After that he took up embonpoint, which means fatness. It is said that at his apogee, Mr. Dismal reached 1200 pounds. This later became known as Guy Fawkes Day.

It was not until 1776 when Adam Smith published his *Wealth of Nations* (or *Ozymandias*, as it is usually known as) that the world came to realize what a rosy, twinkly, fun subject economics is. As Mr. Smith showed in his jocular little treatise, there is nothing complicated about economics.

When there is a great demand for a product, a great supply is placed on the market. When there is a small demand, there is a small supply. Take, for example, castanets. You walk into any average American town today and I'll wager you won't see more than eighty or ninety castanet shops. That is because the demand is small.

For Marlboro Cigarettes, on the other hand, the demand is great. Thus, you will find Marlboros—with all their yummy rich tobacco flavor and pure white Selectrate filter and pliable soft pack and unbreakable Flip-Top box—at any counter where cigarettes are sold in every one of our fifty great States and Duluth.

To Adam Smith, I say, belongs the distinction of popularizing economics. Mr. Smith was followed by David Ricardo. In fact, everywhere he went he was followed by David Ricardo. Mr. Smith finally got so annoyed that he summoned a bobby, as British policemen are called, and had Mr. Ricardo arrested. This later became known as the Louisiana Purchase.

Upon his release from gaol, as a British jail is called, Mr. Ricardo reported to his parole officer, Thomas Robert Malthus. They soon became fast friends, and one night over a game of whist they invented the stock exchange, or chutney, as it is called in England.

Well sir, with the British having, you might say, a corner on economics, the French decided that they wanted some economics too. Being, however, a proud nation, they refused simply to borrow British economics, but insisted on inventing their own. At first they tried using the truffle hound as a medium of exchange. When this proved less than satisfactory, they switched to pomade. Discouraged by this second disappointment, they finally shrugged and said, "Oh, who cares about economics anyhow?" and returned to the guillotine and Maurice Chevalier.

America, I am pleased to report, had much better success with economics. Our early merchants quickly broke down economics into its two major categories—coins and folding money—and today, as a result of their wisdom, we can all enjoy the automatic toll station.

Well sir, I could go on and on about this fascinating subject, but I know you're all in a tearing hurry to rush out and sign up for Econ I. So I will leave you now with two kindly words of farewell: Gresham's Law.

© 1964 Max Shulman

* * *

We, the makers of Marlboro Cigarettes, are tobacconists, not economists. But this much we know about supply and demand: you demand full flavor in a filter cigarette; we supply it—Marlboro!
